Board Certified in Pain Management

**Long-Term Controlled Substances Therapy for Chronic Pain**

The purpose of this agreement is to protect your access to controlled substances and to protect our ability to prescribe for you.

The long-term use of such substances as opioids (narcotic analgesics), benzodiazepine tranquilizers, and barbiturate sedatives is controversial because of the uncertainty regarding the extent to which they provide long-term benefit. There is also the risk of an addictive disorder developing or of relapse occurring in a person with a prior addiction. The extent of this risk is not certain.

Because these drugs have potential for abuse or diversion, strict accountability is necessary when use is prolonged. For this reason the following policies are agreed to by you, the patient, as consideration for, and a condition of, the willingness of the physician whose signature appears below to consider the initial and/or continued prescription of controlled substances to treat your chronic pain.

1. All controlled substances must come from the physician whose signature appears below or, during his or her absence, by the covering physician, unless specific authorization is obtained for an exception. (Multiple sources can lead to untoward drug interactions or poor coordination of treatment.)
2. All controlled substances must be obtained at the same pharmacy, where possible. Should the need arise to change pharmacies, our office must be informed. The pharmacy that you have selected is: \_\_\_\_\_ Phone: \_\_\_\_\_
3. You are expected to inform our office of any new medications or medical conditions, and of any adverse effects you experience from any of the medications you take.
4. The prescribing physician has permission to discuss all diagnostic and treatment details with dispensing pharmacists or other professionals who provide your health care for purposes of maintaining accountability.
5. You may not share, sell, or otherwise permit others to have access to these medications, including spouses, relatives, or friends.
6. These drugs should not be stopped abruptly, an abstinence syndrome will likely develop.
7. Unannounced urine or serum toxicology screens may be requested at every office visit, and your cooperation is required. Failure to comply will result in immediate discharge from the practice. If prescribed medication is not detected in your screening, this may also result in immediate discharge. Presence of unauthorized substances may prompt referral for assessment for addictive disorder.
8. Prescriptions and bottles of these medications may be sought by other individuals with chemical dependency and should be closely safeguarded. It is expected that you will take the highest possible degree of care with your medication and prescription. They should not be left where others might see or otherwise have access to them.

9. Original containers of medications should be brought in to each office visit.
10. Since the drugs may be hazardous or lethal to a person who is not tolerant to their effects, especially a child, you must keep them out of reach of such people.
11. Medications and prescriptions will not be replaced if they are lost, get wet, are destroyed, left on an airplane, etc. If your medication has been stolen and you complete a police report regarding the theft, an exception may be made.
12. Early refills will not be given.
13. I will not use alcohol or any illegal substances while on these prescribed medications.
14. Prescriptions may be issued early if the physician or patient will be out of town when a refill is due. These prescriptions will contain instructions to the pharmacist that they not be filled prior to the appropriate date.
15. If the responsible legal authorities have questions concerning your treatment, as might occur, for example, if you were obtaining the medications at several pharmacies, all confidentiality is waived and these authorities may be given full access to our records of controlled substances administration.
16. It is understood that failure to adhere to these policies may result in cessation of therapy with controlled substance prescribing by this physician or referral for further specialty assessment.
17. Renewals are contingent on keeping scheduled appointments. Please do not phone for prescriptions after hours or on weekends.
18. Please call five (5) business days before you are due for a refill to ensure your prescriptions will be ready.
19. It should be understood that any medical treatment is initially a trial, and that continued prescription is contingent on evidence of benefit.
20. The risks and potential benefits of these therapies are explained elsewhere [and you acknowledge that you have received such explanation].
21. You affirm that you have full right and power to sign and be bound by this agreement, and that you have read, understand, and accept all of its terms.
